Microset 4. Alerton's Microset 4 wall sensor's strengthened glass touchscreen user interface can display the setpoint, room and outside air temperatures, relative humidity and fan status. A configurable LED Status Light indicator displays heating or cooling status at a glance. The Microset 4 is fully backward compatible with Alerton's BACtalk™ system, enabling users to leverage their existing Alerton devices.

Microset 4 - Alerton

Touchscreen display, crisp edge-to-edge glass, small bezel setting, elegant layered construction, quality stainless steel ventilation detail, designed for longevity—all this adds up to Alerton's Microset ™ 4! Part of Alerton's Ascent product line, the newly designed wall sensor combines aesthetic elegance with technical functionality for a five-star experience that is second to none for all types of jobs, buildings and campuses.

Alerton Building Automation Resources

The Microset II is an intelligent zone sensor and tenant service device used in conjunction with Alerton's VisualLogic® controllers. The Microset has a backlit LCD display for easy viewing in any lighting condition. The tenant can view the current room and outdoor air temperature as well as view and change the current room setpoint.

Sensor - Alerton

The Microset is an intelligent zone sensor that serves as a tenant control center and a field service tool. It includes a digital display for readout of space and outside air temperature, setpoint adjustment, override control in adjustable increments and a service mode for viewing and changing controller parameters. Humidity sensing is optional.

Microset (BACtalk) - Alerton

Alerton Training Emphasizing 'real-world' scenarios in the development and operation of building automation control systems, the goal of Alerton Training is to maximize the potential of every student by delivering comprehensive instruction in an interactive learning environment. Here are just some of the training options available through Alerton.
