ALEX THE PARROT | Kirkus Reviews

In 1977, graduate student Irene Pepperberg walked into a pet store and bought a year-old African grey parrot. Because she was going to study him, she decided to call him Alex--short for Avian Learning EXperiment. At that time, most scientists thought that the bigger the brain, the smarter the creature; they studied great apes and dolphins.

" The bigger the brain, the smarter the creature "—or so scientists thought until graduate student Irene Pepperberg bought an African Grey parrot from a pet shop. Named Alex, short for Avian Learning Experiment, the bird would defy all expectations by learning to use more than 100 words; perform rudimentary mathematics; and discern shapes, colors, and more—eventually demonstrating the intellectual capacity of a five-year-old child and forever changing the way we think about animal ...

Alex the Parrot: No Ordinary Bird by Stephanie Spinner ...

Alex, as adult readers may recall, was indeed no ordinary bird: for 30 years, this African grey parrot, purchased in a pet shop, was the research subject of animal psychologist Irene Pepperberg, who taught Alex how to count and do simple arithmetic; recognize shapes, materials, sizes, and colors; and speak and understand hundreds of words upending the conventional wisdom about animal intelligence and proving that "birdbrain" could actually be a compliment.
