The clinical material in Base Instincts is derived partly from the research Lewis and Pincus conducted and published from the 1970s through the present. Pincus estimates that he has evaluated approximately 150 murderers. Base Instincts is appropriate for medical and legal professionals as well as the general public. Pincus explains specialized terms, eg. "The clear and waterlike cerebrospinal fluid bathes the brain and spinal cord."

Violence: Base Instincts: What Makes Killers Kill? | JAMA ...

In the book Base Instincts: What Makes Killers Kill, Neurologist Jonathan H. Pincus studies and researches extensively the characteristics and behaviors of serial killers and murderers. He gathers information from a broad variety of people, varying in gender, age, income level and social status. Pincus study was thorough and un-biased. He interviewed the killers families, acquaintances, the killers themselves, and the families of victims.
