Pollution is a major environmental problem caused mostly by automobiles. The burning of fuels creates toxic emissions. Many Americans do not experience the horrible results of pollution that other poorer countries face in urban environments. Congress passed laws that minimized the standard for automobile pollution.

[The Automobile: Effects/Impact on Society and Changes in...](#)

In addition to money for roadway construction, car use was also encouraged in many places through new zoning laws that required any new business to construct a certain amount of parking based on the size and type of facility. The effect was to create many free parking spaces, and business places further back from the road. In aggregate, this led to less dense settlements and made a carless lifestyle increasingly unattractive.
