Cities, poverty, and development: urbanization in the ...

However, as noted by the International Monetary Fund, " the process of urbanization has affected rural poverty more than urban poverty ". Although urbanization greatly contributes to the alleviation of poverty in rural communities, the same is not true for urban areas - Photo Credit: Wikipedia. Urbanization directly affects rural poverty, as it generates new opportunities for rural workers, who shift out of agriculture and into more remunerative, non-farm activities in the city.

Effects of Urbanization On Poverty - Richmondvale Blog

Over 90 percent of urban growth is occurring in the developing world, adding an estimated 70 million new residents to urban areas each year. During the next two decades, the urban population of the world ' s two poorest regions—South Asia and Sub-Saharan Africa—is expected to double.

With vision, planning and financing, cities can help provide solutions for the world. this year ' s United Nations Conference on Housing and Sustainable Urban Development — known as

URBANIZATION AND DEVELOPMENT

Therefore, while it is true that urbanization has substantial poverty-reduction effects on populations, governments need to be more acutely aware of the risks of urban poverty, and the need for urban investment to complement rural investments in poverty-reduction. Urban growth must be paired with appropriate policies, institutions, and strategies to mitigate the risks of rising urban poverty.
