Clinical nurses' perspectives on discharge practice changes from participating in a translational research study. Kathleen L. Bobay RN, PhD, FAAN. Corresponding Author. Professor. E-mail address: kbobay@luc.edu. <https://orcid.org/0000-0003-2734-6602>. Marcella Niehoff School of Nursing, Loyola University Chicago, Chicago, IL, USA.

*Clinical nurses' perspectives on discharge practice ...*

Nurses' participation in translational research studies provides an opportunity to evaluate how implementation of new nursing interventions affects care processes within a local context. These insights can provide information that leads to successful adoption and sustainability of the intervention.

*Clinical perspectives in nursing research : relevance ...*

In the UK, advanced clinical practice roles in nursing started to be developed in the 1970s and 1980s with the introduction of specialist roles for nurses, and the introduction of autonomous community clinical Nurse Practitioners . Since then advanced and specialist practice has gone through significant development both clinically and educationally, supported by a number of policy drivers and ...

*Perspectives: Reflections on a debate: When does Advanced ...*

Clinical research nursing is definitely not for the fainthearted. Most people get into nursing for the patient contact. You still have that but you also get other experiences like handling data, project managing and making direct approaches to very senior managers and consultants. You have to be proactive which can be difficult.

*The Role of the Clinical Research Nurse*

Using multiple philosophical and theory-based approaches as well as diverse methodologies, nursing research focuses on the understanding and easement of the symptoms of acute and chronic illness; prevention or delayed onset of disease or disability, or slowing the progression thereof; finding effective approaches to achieve and sustain optimal health; and improvement of the clinical settings in which care is provided (National Institute of Nursing Research, 2003).
