Dogging

Rigging Guide

The three main parts to any load lifting operation are the lifting equipment (crane/derrick/hoist), the operator/operation of the equipment, and the rigging of the load. This guide focuses on the rigging of the load.

Access Free Dogging ~~Rigging Safety Guide — MCAA~~

Rigging is the process used in securing materials to be moved by cranes, hoists and various other lifting equipment. When securing a load with slings or chains, there are many factors to be considered

Access Free
