for 2019 ...

Gartner's annual top 10 strategic technology trends highlight trends that will drive significant disruption and opportunity over the next five to 10 years. This year's trends focus on "people-centric smart spaces" – how technologies will affect people (i.e., customers, employees) and the places they live (i.e., home, office, car). IT leaders must decide what combination of the trends will drive the most innovation and strategy for their enterprise.
