GPS Satellite Surveying - Alfred Leick - Google Books

Thanks, Tom! ExpertGPS now handles assumed basis of bearings and custom declinations, which should make it much easier to enter older plats. With the introduction of modern GPS units that combine signals from Glonass, Galileo, and US GNSS satellites, the accuracy has gotten much better, and the techniques described above should get you close enough to the spot to find a hidden survey pin.

How to Survey Your Property Lines using a GPS Receiver
