Islamic historiography emerged out of the triumph and trauma of the seventh century: the sudden rise of a new religion among the peoples of Arabia, the vast conquests which they made under the banner of that religion, the profound changes which religion and empire wreaked on their traditional culture and socio-political organization, and the bitter civil strife which rent a unified community of believers into hostile sects and factions.

Historiography - an overview | ScienceDirect Topics

The separation of church and state is a philosophic and jurisprudential concept for defining political distance in the relationship between religious organizations and the state. Conceptually, the term refers to the creation of a secular state (with or without legally explicit church-state separation) and to disestablishment, the changing of an existing, formal relationship between the church ...
