Operating manuals - Jungheinrich

The EMC 110 / EMC B10 is a four-wheel, tiller-operated electric stacker with a steered drive wheel. It is designed for use on level surfaces to lift and transport palletised goods. Open bottom pallets or roll cages can be lifted. ZThe EMC is designed for light-duty operations; the maximum continuous operation time is two hours.

The flexible and robust electric pedestrian stackers EMC 110/EMC B10 excel with their versatility. Due to their very short chassis length as well as a low overall weight, they are ideal for occasional stacking and transporting of goods in confined spaces, elevators or intermediate floors. The powerful and maintenance-free drive motor with 24-V AC technology creates perfect conditions for fast ...
