At the time of this review, only two books designed for the revised AP Biology exam are available - this is easily the better of the two (the other is from Princeton review, and is not worth the time or money - see Cracking the AP Biology Exam, 2013 Edition (Revised) (College Test Preparation) for my review of it). Kaplan's book does discuss the new framework of 4 Big Ideas, and the questions in its practice tests are somewhat more geared the broader conceptual focus the College Board has ...
