Depth of Knowledge, or DOK, is a way to think about content complexity, not content difficulty. That is the first thing with which people must come to understanding. Complexity is different from difficulty. For example, if students have not seen the word or content before, it might be difficult for them, but it is not complex.

Professional Development / Depth of Knowledge (DOK)

The depth of knowledge corresponds to the content complexity of a particular educational material. It can be applied to learning expectations, instructional prompts, and assessment items alike. DOK is a language system, with definitions of each level of complexity for each subject area. For all subject areas, there are four DOK levels.
