Kubota was the first manufacturer to pass the U.S. CARB ULGE emission regulations for engines under 25HP. All Kubota-made diesel engines are now in compliance with the U.S. E.P.A., the European EC, and the Japanese MOC regulations. Kubota will continue to work aggressively toward meeting all future emission standards.

03 Series Repair Workshop

The Kubota OC Series is a single-cylinder, vertical, air/oil-cooled diesel engine. Unlike other Kubota engines, Kubota OC Series engines rely on oil and air to cool the engines. There is a cooling fan connected to the crankshaft, also fan shroud and ducting to optimize the cooling system further.
