is as clear and jargon-free as possible.

*Law on the Web - DAS
Law*

Huberman's *The Laws of the Web* lucidly explains the Internet's boom and bust. His research has long been useful to theorists of social coordination; now, business strategists can take advantage of

Download Free Law Of The Web

his succinct and clear analysis. The growth of the Web, as well as the economic and social conventions that seem to be spawned in unpredictable and chaotic fashion, come into focus here.

structure very similar to that of other real networks, such as the Web and the network of scientific papers.

Indeed, preliminary analysis suggests the citation network of U.S. Supreme Court cases is nearly identical to the network of high-energy physics papers, and is well described by a two-power-law model.
