Meteorology - definition of meteorology by The Free Dictionary

Meteorology is a branch of the atmospheric sciences which includes atmospheric chemistry and atmospheric physics, with a major focus on weather forecasting. The study of meteorology dates back millennia, though significant progress in meteorology did not occur until the 18th century. The 19th century saw modest progress in the field after weather observation networks were formed across broad ...

Materiology. Text by Susanne Junker Berlin, Germany . This is an exciting and stimulating book which is both an enjoyable read and a detailed and accurate work of reference! Admittedly when I was studying, the subject of materials science was desperately boring, consisting purely and simply of learning dry vocabulary and without arousing any enthusiasm or inspiration for the feel or design of ...

Materiology: The Creative Industry's Guide to Materials ...

A couple of days ago, I was having my last dinner in the middle of a 15,000 acre tree farm having finished a wildly successful two weeks of production at Pilchuck Glass School. Now, I am sitting on the 4th floor or a SoHo loft in Manhattan the last day of the Model Citizens NYC offsite show. I get back to Boston later this week, and after a couple of days decompression and hibernation in my own ...
