Microprocessors In Signal

Processing, Measurement and

And Control Intelligent

An image processor, also known as an image processing

engine, image processing

unit (IPU), or image signal

processor (ISP), is a type

of media processor or

specialized digital signal

processor (DSP) used for

image processing, in digital

cameras or other devices.

Image processors often

employ parallel computing

even with SIMD or MIMD

technologies to increase

speed and efficiency.
