Taguchi Tutorial

Minitab provides two types of Taguchi designs that let you choose a product or process that functions more consistently in the operating environment. Both designs try to identify control factors that minimize

# Online Library Minitab Taguchi Tutorial

the effect of the noise factors on the product or service.

## HOW TO USE MINITAB

Use Response Optimizer to identify the combination of input variable settings that optimize a single response or a set of responses.

Minitab calculates an optimal solution and draws an optimization plot. This

# Online Library Minitab Taguchi Tutorial

interactive plot allows you to change the input variable settings to perform sensitivity analyses and possibly improve upon the initial solution.

## Response Optimizer - Minitab

Taguchi Designs Both Taguchi designs and Factorial designs are are

# Online Library Minitab Taguchi Tutorial

available in the DOE menu in Minitab Statistical Software. To select a design go to Stat > DOE. Many Taguchi designs are based on Factorial designs (2-level designs and Plackett & Burman designs, as well as factorial designs with more than 2 levels).
