Rocks are so common that most of us take them for granted—cursing when we hit them with the garden hoe or taking advantage of them to drive in tent pegs on summer camping trips.

Rocks Information and Facts | National Geographic

Like the world's oldest blog, rock reveals millions of years of events and change. It shares how and when the earth's features, like mountains, oceans, or canyons were shaped. In a way, embedded fossils provide a selfie or picture of the environment at the time the rock was formed. Rock: rockin' the Earth for 4.55 billion years!
