Next Medicine The Science And
Prevention is key to combating largely-preventable diseases such as
cancer, diabetes, and conditions such as obesity. Next Medicine.
The Science and Civics of Health. Walter Bortz, MD. Description.
Every year, the average American spends about \$7,300 on medical
expenses. The typical Canadian pays \$2,700, the Briton only
\$2,000.

Next Medicine - Walter Bortz, MD - Oxford University Press
In Next Medicine, Dr. Walter Bortz zeroes in on why the American
medicine is spiraling toward disaster. A physician with fifty years
of experience and a leading authority on aging, Bortz argues that the

Top 20 Medical Technology Advances: Medicine in the Future

Although the development of effective vaccines has saved countless lives from infectious diseases, the basic workings of the human immune system are complex and have required the development of animal models, such as inbred mice, to define mechanisms of immunity. More recently, new strategies and te ...

The science and medicine of human immunology

Next Medicine is really a manifesto for a revolution in our health care system. Dr. Bortz provides a brilliant and damning diagnosis of the maladies that beset our present, dysfunctional system and offers a prescription for change that would have transformative effects if it were to be followed.
