What Is a Paper Wallet? A paper wallet is an offline method of storing Bitcoins (and other cryptocurrencies). But you’re not printing out your digital Bitcoins into a physical form. Instead, you’re creating a printed copy of the keys for your Bitcoin address. These keys are what allow you to access your Bitcoins and send them to someone else. The paper printout simply stores a copy of both your public and private keys, which are often displayed as QR codes for ease of use. How Secure Is ...
