Repression and Dissociation: Implications for Personality ...

Dissociation: Dissociation is disintegration of a personality into two or more independent streams of consciousness. Janet regards dissociation as the fundamental feature of neurotic disorders. Some psychologists treat of repression and dissociation as though the two terms were synonymous. But they are distinct from each other.

Repression and dissociation : implications for personality theory, psychopathology, and health

Repression and dissociation : implications for personality ...

Because repression and dissociation are both postulated mechanisms for denying introspective access to certain mental contents, it would seem useful to conclude with some comments about how these processes could be conceptualized in terms of contemporary information-processing approaches to memory (see also Erdelyi, 1985; Erdelyi & Goldberg, 1979; Hilgard, 1977; Hoyt, 1987; Kihlstrom, 1984, 1985, 1987a).
