Smart Wristband is the supporting application of smart bracelet series S1, S2, and S3. The bracelet can provide testing and statistics of step counting, sleep, heart rate, and exercise data. Smart Wristband can be used in conjunction with the bracelet to show you the data more intuitively and in detail. At the same time, Smart Wristband also develops many auxiliary functions, such as call ...

Smart Wristband - Apps on Google Play

Smart watches and fitness trackers come in all shapes and sizes, some are bright and colourful while others look more like a traditional wrist watch. Fitness bands are usually slim, discreet and made to be worn all day - even when you're asleep. They'll track your daily fitness such as steps taken, calories burned, and even the amount of sleep you got.
