Disaster ...

The loss of the great fenlands of eastern England is the greatest single removal of ecology in our history. So thorough was the process that most visitors to the regions, or even people living there, have little idea of what has gone. For many, the Fenlands are the vast expansive flatlands of intensive farming, the 'breadbaskets' of Britain.

farming, the 'breadbaskets' of Britain.

The Lost Fens: England's Greatest Ecological Disaster ...

The Fens, also known as the Fenlands, is a coastal plain in eastern England. This naturally marshy region supports a rich ecology and numerous species, and helps absorb storms. Most of the fens were drained centuries ago, resulting in a flat, dry, low-lying agricultural region supported by a system of drainage channels and human-made rivers and automated pumping stations. There have been unintended consequences to this
