It nevertheless remains a very useful reference and a fascinating book to read for anyone interesting in "the making of the Roman army." It is rather sketchy for the first centuries of Rome, although this is largely because little is known. It gets better and more detailed when it hits the third century BC.

Roman glass objects have been recovered across the Roman Empire in domestic, industrial and funerary contexts. Glass was used primarily for the production of vessels, although mosaic tiles and window glass were also produced. Roman glass production developed from Hellenistic technical traditions, initially concentrating on the production of intensely coloured cast glass vessels. However, during the 1st century AD the industry underwent rapid technical growth that saw the introduction of glass bl

This is precisely why I can't resist making Roman mosaic copies. Despite suffering from the dusty foot soldier syndrome when confronted with the originals, I find myself drawn to making my own copies both as a quiet act of homage to the Roman's achievements but also because the more one looks at them, the more one learns.

Roman standards were held in awe and fiercely protected. They were symbols of Roman honour. A standard is a long pole with badges or flags on. The Badge. The standard which most closely resembles the modern flag is the vexillum, a small square piece of cloth attached to a cross-bar carried on a pole. This standard shows what legion the soldiers ...

## ~~The Roman Standard Bearers~~

Focusing on the emperors Augustus and Nero, this course investigates the ways in which Roman emperors used art, architecture, coinage and other media to create and project an image of themselves, the ways in which the surviving literary sources from the Roman period reinforced or subverted that image, and the ways in which both phenomena have contributed to post-classical perceptions of Roman emperors.
