Oxford Handbooks—Scholarly Research Reviews
Abstract. The word is central to both na 1 ve and expert theories of language. Yet the definition of word remains problematic. The 42 chapters of this Handbook offer a variety of perspectives on this most basic and elusive of linguistic units. Topic ranges from the presentation of words in works of reference (dictionaries and thesauri), the statistical properties of words in text (frequency and length distributions), the internal structure of words, their categorization into parts of speech ...

The Oxford Handbook of the Merovingian World—Bonnie—
Abstract and Keywords. This chapter provides a contemporary interdependence theory account of the causes and consequences of relationship interactions. The chapter (1) describes how interdependence theory provides a functional analysis of interaction, (2) reviews basic concepts of interdependence theory, (3) proposes a novel model integrating original interdependence concepts with more recent research, and (4) suggests how this model can be useful in future research.
