The Practice of Critical Discourse Analysis: an ...  
Critical discourse analysis is an interdisciplinary approach to the study of discourse, or put simply talk and text, that views language as a form of social practice. Scholars working in the tradition of CDA generally argue that social practice and linguistic practice constitute one another and focus on investigating how societal power relations are established and reinforced through language use. In this sense, it differs from discourse analysis in that it highlights issues of power asymmetries

Within this style of research, the focus is on how words are used. Methodologically, there are two main research trajectories – discourse analysis (Potter and Wetherell, 1987) and critical discourse analysis (Rogers, 2004) – although in practice they often somewhat overlap. Whatever approach is taken, when studying documents in this way one is interested in the rhetorical work of the text, how the specific issues it raises are structured and organized, and how it constructs a specific ...
