The Very Hungry Caterpillar is a children's picture book designed, illustrated, and written by Eric Carle, first published by the World Publishing Company in 1969, later published by Penguin Putnam. The book features a caterpillar who eats his way through a wide variety of foodstuffs before pupating and emerging as a butterfly. The winner of many children's literature awards and a major graphic design award, it has sold almost 50 million copies worldwide. It has been described as having sold the

Finally, it is no longer hungry and no longer small. The big, fat caterpillar builds a cocoon around himself and finally emerges as a beautiful butterfly. In fact, what Carle calls the cocoon is really the pupa or chrysalis. The Very Hungry Caterpillar is unique in that it actually has the holes eaten by the caterpillar. Like most of Carle's books, it is illustrated with tissue-paper collages resplendent with color and detail.
