Vincent Lyon, you have not told us what you have checked. The no video issue can be related to a bad backlight inverter circuitry. A simple check for that would be to darken the room and turn the TV on. Then use a flashlight and angle the light at the screen on different areas. you might make out some shadows or see a slight grey color.

SOLVED: No picture but sound - Vizio Television - iFixit

I think the assessment from vizio is horrible, almost never do you have sound no picture and it end up being a bad main board. I would suspect the t-con, inverter or a power issue feeding the inverter before the main board. I would almost not even consider the main board at this point.
