Well, with the release of the 8th edition army book, those days are effectively over. Daemons are one of the trickiest armies to play now simply due to the

amount of randomness thrown into the new book. The first big change comes from the Reign of Chaos table which is consulted when you roll for winds of magic.

Since the release of their codex in

early 8th edition, Chaos Daemons have seen a number of updates, owing in part to their unique status as the only crossover army between Warhammer 40,000 and Age of Sigmar. As releases like Wrath and Rapture have added new models to the range, we've seen new units and

updated datasheets for the faction, but haven't had much in the way of updated Stratagems or rules.
